Web Design

Ecommerce

Web Applications

SEO Implementation

Search Engine Marketing

Maintenance & Operation

Web Design

From landing page design to CMS themes and portal implementation, GlueTube™ builds your UX (User Experience) architecture based on best practices. We deliver the creative artwork and layout for user-friendly responsive UI (User Interface) taking into consideration accessibility (508 compliance) and SEO without compromising the visual value of your brand (corporate identity)

ECommerce

Develop a reliable and scalable ecommerce platform integrated with a trusted payment gateway to process transactions for your online store. Offer your customers a feature-rich experience with marketing tools to manage your customer communications, email marketing and retargeting, Coupon Management, CRM modules, and loyalty programs.

Web Applications

Beyond CMS (Content management systems), Process flow modules, Online Systems, Portals and Directories, our team is experienced in developing advanced web applications from the ground up or build on your existing system. We have achieved major backend integrations for critical web-based system and on different platforms iOS, Linux & Windows.

Maintenance & Operation

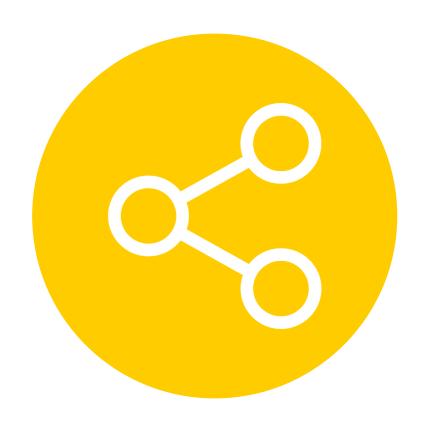

For more than a decade, GlueTube™ has been helping clients operate their online presence with over 99% up time. Simple website hosting or critical web application management, your project will have 24/7 access to project management and will always have the attention of our qualified team to ensure its functionality or enhance its features.

Search Engine Marketing

Guided by your campaign objectives, GlueTube™ will plan and execute targeted PPC (Pay Per Click) Google AdWords Campaigns, daily monitor campaign performance, optimize triggers/criteria, and practice remarketing/retargeting to ensure maximum results.

SEO Implementation

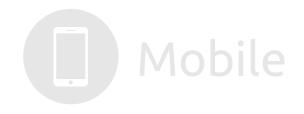

GlueTube™ handles all on-page SEO tasks including all code and technical work, development of required content, and UI design and layout amendments. We execute off-page SEO tasks including submission cycle, link management, and editorial article writeups and placement.

Social Planning & Strategy
Community Management
Social Media Advertising
Contests & Facebook Ads
Influencers Campaign
Social Listening & Reporting

Social Media Planning and Strategy

Research and audit of existing social media pages and activities, together with a competitive analysis and benchmarking, will help us understand your brand. This is vital to develop a unique content strategy that will you build and growth your brand community.

Community Management

GlueTube™ offers full operation of your presence across all social media networks. From content research, posting calendars (including all editorial and creative work), to community moderation, engagement management, total activity monitoring and reporting.

Social Media Advertising

Based on your objectives, GlueTube™ will develop the campaign brief, the execution plan and budgets recommended. From simple post promotion to a targeted social media ad campaign, we will plan, monitor and optimize the campaign performance to maximize visibility and drive results.

Contests and Facebook Apps

Run social media contests and develop engaging Facebook apps to interact with your community. From Terms development to logistics planning, and from conceptualization and creative to placement and performance reporting, every aspect will be focused at your channel growth.

Influencers Campaigns

Considering your marketing objectives, GlueTube™ will research and nominate relevant influencers legitimate in delivering your brand's message in their own voice. We will handle all campaign planning including influencer communications and campaign-end detailed reporting.

Social Listening and Reporting

Audit and evaluation are keys to any successful result-driven online strategy. They extend beyond your pages to include every aspect of your brand on all social media platforms. GlueTube™ provides monthly and quarterly cycles of reporting with recommendations to optimize performance.

Mobile App Development

Mobile Commerce

Mobile Marketing

App Marketing

SMS & MMS Campaign

App Maintenance & Operation

Mobile App Development

Ranging from mobile sites to native mobile apps, GlueTube™ develops mobile platforms, mobile content management systems, mobile games, and other mobile apps that take advantage of the hardware features (e.g. push notifications, GPS tracking, QR code)

Mobile Commerce

Get a turn-key solution for your mobile commerce platform. A mobile app that is fully integrated with your backend system, online payment gateway, and seamlessly integrated with logistics systems (e.g. 3rd party shipping companies)

Mobile Marketing

Depending on your marketing objective and target consumers, running an ad campaign within other mobile apps gives direct access to your prospects. GlueTube™ helps you plan and execute mobile campaigns that deliver marketing results.

App Marketing

After you have made your app available on storefronts, your app marketing journey starts. GlueTube™ can help your app reach millions of users and downloads worldwide. We can help you boost your reach across platforms; GooglePlay, iStore and Windows AppStore.

SMS and MMS Campaigns

We all know the effectiveness of "old" SMS campaigns. They never fail to deliver. Let us help you setup your own SMS Gateway that could be integrated with your backend systems (e.g. CRM) GlueTube™ could also plan and execute SMS campaigns based on your target market.

App Maintenance and Operation

If you are looking to maintain your existing app or enhance its features, GlueTube™ offers you different SLA (Service Level Agreement) options starting from per call/request agreement to full operation of the app including hosting, maintenance, operation, and development hours.
